**SCHOOL OF EDUCATION PROGRAMS RELY ON A FOUNDATION OF LIBERAL ARTS AND SCIENCES COURSES.**

Students complement pedagogical learning with subject matter expertise in their chosen academic major. Prior to student teaching, our students spend time in classrooms being guided by experienced master teachers and college faculty.

Long a cornerstone of the New Paltz tradition of academic excellence, the School of Education is committed to the preparation of skilled and dedicated teachers. Today, the School of Education continues its legacy of innovation and excellence in the development of caring, reflective professionals who are committed to critical inquiry and intellectual development, professional skills and dispositions, culturally responsive practices and social justice.
Families are encouraged to stop by the front desk in the STL to learn how the Library supports our students.
